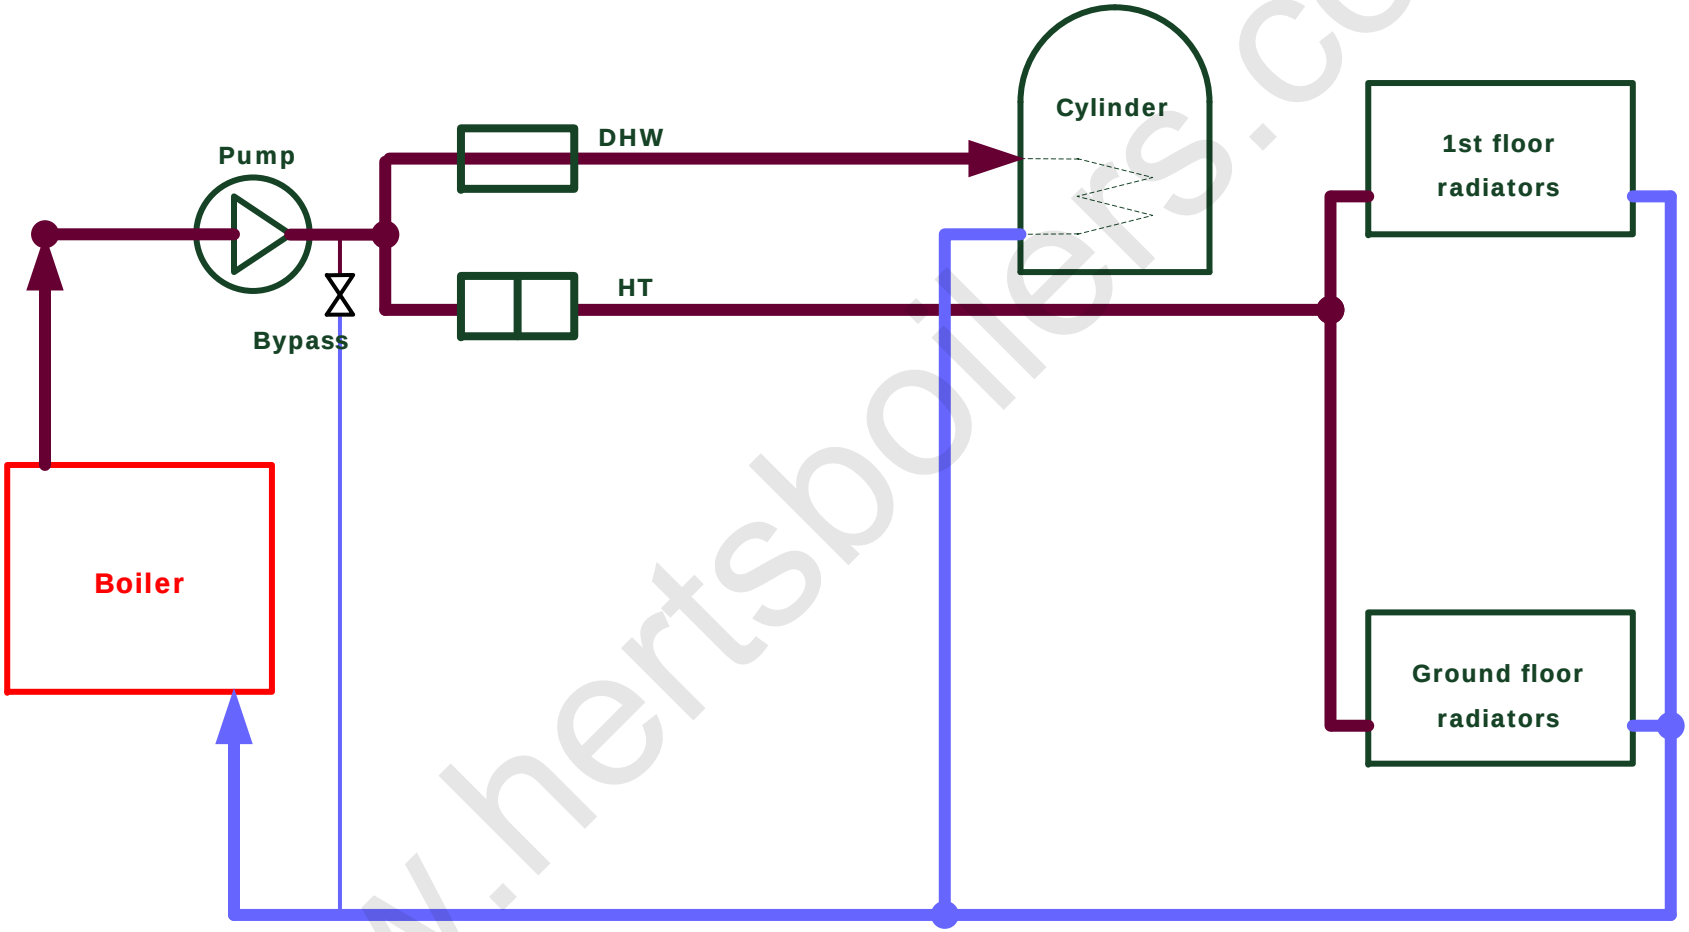
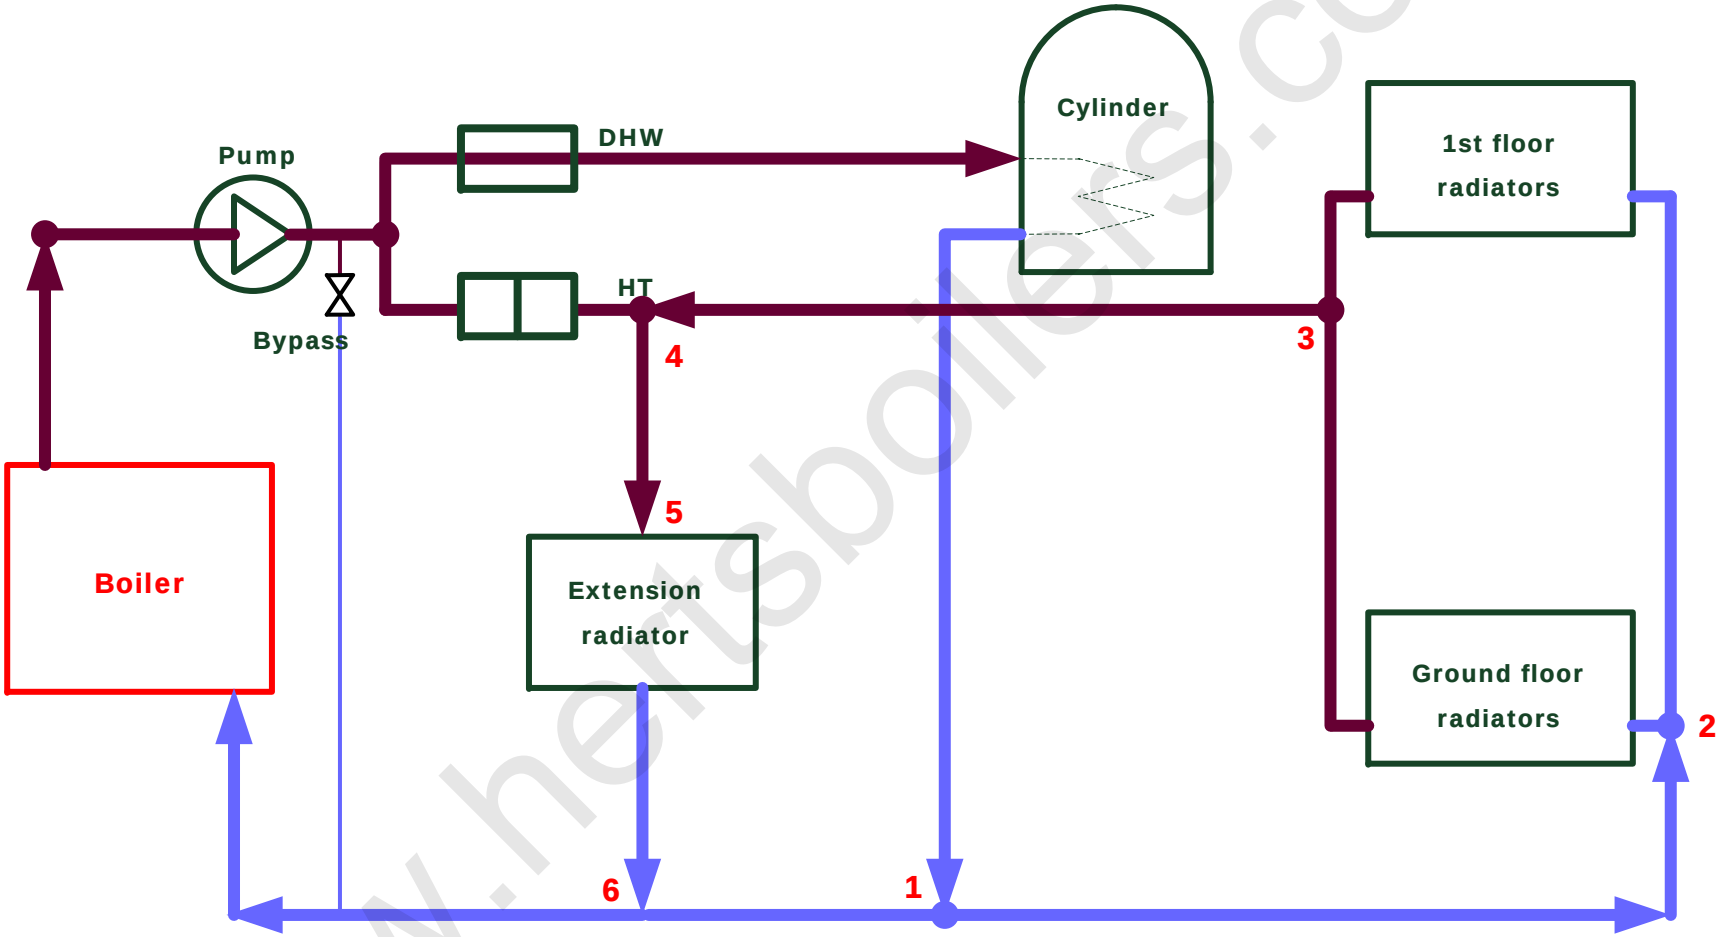
No Reverse Circulation



www.hertsboilers.co.uk

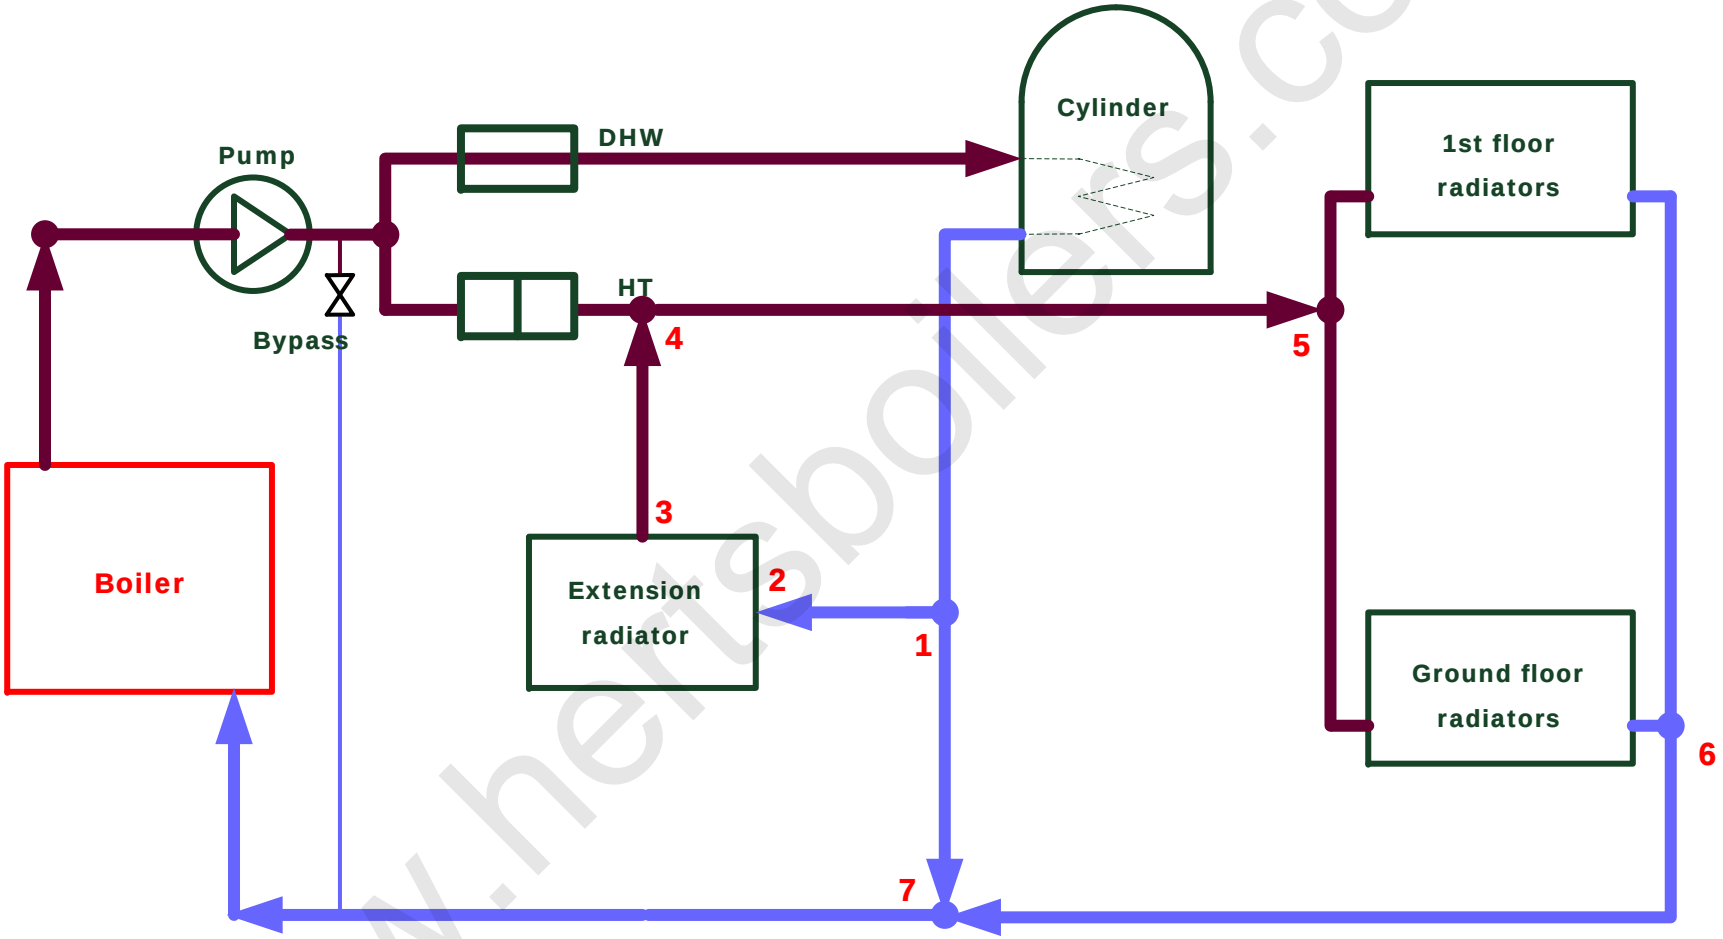
Reverse Circulation 1



As P1 > P6, some flow from cylinder return will go through the path 1 to 2 to 3 etc until 6, causing all radiators hot.

www.hertsboilers.co.uk

Reverse Circulation 2



As P1 > P7, some flow from cylinder return will go through the path 1 to 2 to 3 etc until 7, causing all radiators hot.
